Summary

Accomplished solution sales professional with a proven track record of success at leading OEMs and globally recognized technology organizations. With over 19 years of experience, I specialize in driving B2B and B2C sales across digital technologies, SaaS and hybrid solutions, bespoke solutions, business applications, infrastructure, managed services, and staffing solutions. I have developed extensive expertise in product marketing, channel development, and account relationship management, effectively navigating diverse international markets to deliver sustained business growth.

I offer a collaborative approach that involves working closely with cross-functional teams and multiple departments to facilitate important deals, resolve critical process issues and implement optimal packages at both on-site and off-site locations.

As a self-starter with a strong desire to succeed in whatever I do, I have an inherent ability to identify and remove barriers to operational excellence. In addition to my deep abilities to implement workable solutions that fuel the success of key business initiatives, I have a proven record of harnessing technology to meet changing business needs and client requirements.

One of my proudest achievements has been to win top performance awards, such as "Regional Champion", "Gold Performer" "Best Performer" and "Excellent Deal Closer" for driving growth and country penetration. I have nurtured a solid reputation for meeting the goals and objectives of any organization with which I am associated.
